## Personal Profile

---

Frontend developer with over 2 years of experience specializing in Angular, TypeScript and RxJS. Proficient in building responsive, high-performance web applications using modern frameworks and UI libraries such as NgZorro and Bootstrap. I am highly self-motivated, responsible, and professional. Known for adaptability, a positive attitude, and the ability to quickly learn new technologies. I thrive in dynamic environments and enjoy solving complex problems. My key strengths include effective communication, teamwork, and a strong sense of accountability.

## Experience

---

### HG MEDIA E&C Joint Stock Company

Mar 2024 - Present

Frontend Developer

- Contributed to frontend development in a 9-member team, building a resource management and distributed storage system that ensured accurate data presentation and interaction for allocation, tracking, and usage across teams.
- Performed bug fixes, optimized performance, developed features based on requirements, and researched and proposed technology solutions suitable for available resources.
- Developed real-time dashboards for monitoring resource usage across departments.
- Worked closely with backend engineers to integrate Elasticsearch-based search and Ceph distributed storage into the UI.
- Tech stack: HTML/CSS/JS, Bootstrap, Angular.
- Design: Figma, Ant Design.

### Viettel Software Company

May 2023 - Jan 2024

Intern Frontend Developer

- Participated in 2 internal projects related to enterprise project management.
- Developed and maintained code for data processing, access control, project, customer, and contract management, as well as reporting features.
- Worked collaboratively in Scrum teams to deliver weekly iterations and resolve production issues.
- Tech stack: HTML/CSS/JS, Bootstrap, Angular.
- Design: Figma, Ant Design, Material UI.

## Skills

---

- Frontend Technologies: Angular, VueJS, TypeScript, JavaScript, HTML, CSS, SCSS, RxJS.
- UI Libraries & Frameworks: NgZorro, Bootstrap, Tailwind CSS.
- State Management: NgRx.
- API Integration: RESTful API, JSON.
- Tools & Platforms: GitHub, Jira, Postman, Figma.
- Other: Responsive Design, Cross-browser Compatibility, Performance Optimization.
- Development Methodologies: Agile/Scrum.

## Education

---

Hung Yen University of Technology and Education

Oct 2020 - Apr 2024

Major: Technical software
